

Restriction of Hazardous Substances in Electrical and Electronic Equipment (RoHS 2)

L Robinson & Co (Gillingham) Limited incorporating Jubilee Clips Limited is aware of the new RoHS Directive 2011/65/EU (RoHS 2) that is effective of 3rd January 2013.

RoHS 2 is a CE Marking Directive. It is required that CE marking and a declaration of conformity (DoC) are available for finished electrical and electronic equipment. Hose clips are not considered to be electrical or electronic equipment therefore CE markings and DoCs are not required for our products.

However it has been noted that when our products are used on electrical or electronic equipment they become categorized as components or spare parts, this brings them into the scope of the RoHS 2 Directive 2011/65/EU.

L Robinson & Co (Gillingham) Limited incorporating Jubilee Clips Limited confirms that our products comply with the restriction of hazardous substances as directed in the RoHS 2 Directive 2011/65/EU and as components / spare parts our products are not required to have CE marking.

Signed Ian Jennings
