## Type Approval Certificate

### Other Conditions

2.2 The ends of the hose(s) concerned are to be prepared such that there is sufficient overlap with the pipe(s).

2.3 The hose clips are to be secured and tested under full working conditions to the satisfaction of the Society's Surveyor.

2.4 For the services mentioned at 1.2.1, 1.2.2, and 1.2.3, two hose clips shall be fitted to each end of the hose.

3. Only the 'High Torque Jubilee clips' are suitable for heavy duty applications with reinforced hose

This certificate is not valid for equipment, the design, ratings or operating parameters of which have been varied from the specimen tested. The manufacturer should notify Lloyd's Register EMEA of any modification or changes to the equipment in order to obtain a valid Certificate.

The Design Appraisal Document LR21457903TA and its supplementary Type Approval Terms and Conditions form part of this Certificate.
